

AQUAKARTING

"Family Fun Experience"

01

“A **NEW** SPORT IS BORN”

AQUAKART is a patented boat that looks like a kart which you can enjoy in any aquatic environment.

The main difference between an AQUAKART and a traditional jet ski is that you can drive it comfortably thanks to its wheel, just as if you were driving a traditional kart.

Technical Characteristics

DIMENSIONS

Length	2.74 m
Width	1.30 m
Height	0.89 m
Weight	197 kg
Loading Capacity	190 kg

HULL TYPE P.E. Aquakart

ENGINE

Type	ROTAX 900 ACE
Capacity	4T / 899 cc
Power	60 / 90 HP
Fuel Type	30 L
Intake System	Naturally Aspirated
Fuel Consumption	7.34 L/hour
Turbine	Stainless Steel Propeller

STEERING

Steering Wheel K1 Race Gear

02

WHO WE ARE

Paris Dakart Área Recreativa, S.A. is a pioneer company in the field of karting tracks in shopping centers. It has reached more than 25 countries across all five continents thanks to his brand **RACING DAKART** and his innovative protective barrier **PROTEX KARTING**.

The extensive experience of **over twenty years** in the field of karting has enabled to develop an innovative product called **AQUAKART**. It moves the thrill of the kart competition to the aquatic environment.

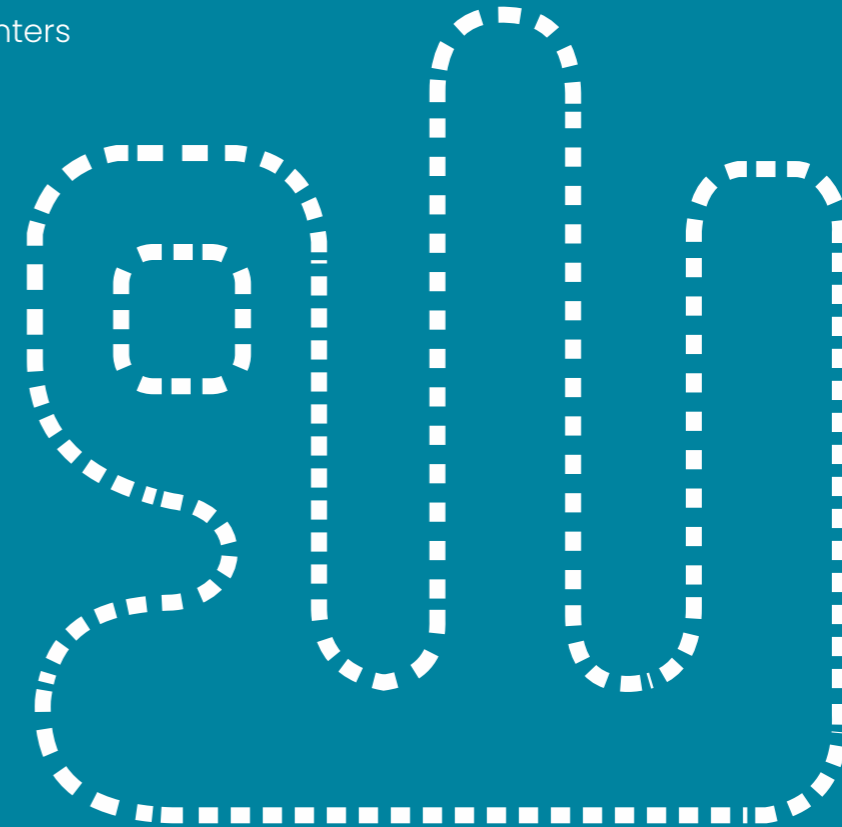

03

FLEXIBLE DEPLOYMENT OPTIONS

OPTION B
Tourist areas
Leisure parks
Shopping centers

OPTION A
Marine areas

OPTION C
Aquatic environments

OPTION D
Artificial lakes

OPTION A

Marine areas

WHERE?

- Marine areas

WHAT?

- Leisure and sport routes
- Tourist potential
- Pole of attraction

HOW?

- Basic package includes:
- 7 AQUAKARTS (recommended minimum number)
 - Parking floating platform
 - Helmet-kiosk for ticket sales
 - Flags and signage
 - Other optional elements

OPTION B

Tourist areas
Leisure parks
Shopping centers

WHERE?

- Tourist areas
- Leisure parks
- Shopping centers

WHAT?

- Fun and safe tours for all ages

HOW?

Package includes:

- 10 AQUAKARTS (recommended minimum number)
- Parking floating platform
- Helmet-kiosk for ticket sales
- Flags and signage
- PROTEX barriers, floating arches and buoys
- Fixing systems
- Other optional elements

OPTION C

Aquatic environments

WHERE? - Existing aquatic environments of more than one hectare

WHAT? - Fun and safe tours for all ages

HOW? Package includes:

- 10 AQUAKARTS (recommended minimum number)
- Parking floating platform
- Helmet-kiosk for ticket sales
- Flags and signage
- PROTEX barriers, floating arches and buoys
- Fixing systems
- Other optional elements

OPCTION D

Artificial lakes

WHERE?

- Outdoor areas

WHAT?

- Fun and safe tours for all ages
- Entirely compatible with other uses, like beach or relaxing area

HOW?

Package includes:

- Artificial lake at least one meter deep
- 10 AQUAKARTS (recommended minimum number)
- Parking floating platform
- Helmet-kiosk for ticket sales
- Flags and signage
- Floating barriers, arches and buoys
- Other optional elements

OPTION D
Artificial lakes

Two types of implementation

AQUAKARTING Lagoon

Lake with AQUAKARTING as exclusive use

AQUAKARTING Lagoon and Beach

Lake with different activities, like relaxing areas or other water sports, including AQUAKARTING

04

FAMILY FUN EXPERIENCE

- 01** **AQUAKART** is **unique in the world**, awarded as second best product by IAAPA in Orlando
- 02** They can navigate with **only 50cm deep**
- 03** **Totally safe**, easy to drive and it cannot overturn
- 04** Aimed at the **whole family**, from 12 to 80 years old
- 05** Possibility of guided tours, sports competitions, enterprises, birthdays,...
- 06** Suitable for users with **reduced mobility**
- 07** Aesthetic, safe and **profitable**

In the last few years our team of professionals, mechanical engineers and technical naval engineers has fully developed an innovative business concept "turnkey solution" called **AQUAKARTING "Family fun experience"**.

The strategy is to build an aquatic infrastructure like artificial lakes, pools or channels with floating circuits.

It is an unique concept especially suitable for use in touristic areas, resorts, leisure parks,...

FAMILY FUN EXPERIENCE

The **Aquakart** is easy to be used offering an exciting experience for everyone. It goes much further than a traditional water sport!

Total Control

Driving an **AQUAKART** is very accurate, easy and safe. You can use the wheel comfortably seated with a low gravity center.

Unique in the world

AQUAKART is the first boat that looks like a kart. It moves the thrill of the kart competition to the aquatic environment.

ENJOY PILOTING A KART ON THE WATER!

USE

The **AQUAKART** is designed to be used in calm waters, both marine waters and freshwater.

You can enjoy them either on guided tours or on closed circuits which have been designed specially to this activity.

After years of research and evolution of prototypes, **RACING DAKART** has fully developed and patented the **AQUAKARTS** that with their light structure, engine power and driving agility are positioned as a new category of vehicles, **the world's first water karts**, differentiating itself from other traditional light boats.

SAFETY

The sense of **stability** is possible due to the lower gravity point and the good seat support. This design provides a high sense of safety avoiding the possibility of overturning under normal conditions. It is fun as well as safe.

Its safety and the disposition of its controls allow them to be piloted by people of all ages from 12 years old to senior users.

AQUAKARTS can also be enjoyed by people with various disabilities becoming an inclusive activity that is positioned as an accessible leisure option unique in the market.

IMPLEMENTATION

We are authorities in the implementation and management of kart circuits and we are always motivated by design and innovation.

We have created a new business concept based on the **AQUAKART** circuits development. The products, like floating barriers, numbered arches, helmet-kiosks for ticket sales,... have been developed by ourselves. All this makes **AQUAKART** an original, attractive, profitable activity that moves away from any current competition.

We have professional experience in the generation of floating circuits, both natural aquatic environments or building channels or artificial lakes. They are ideal for installation in touristic areas, marine waters, shopping centers or leisure parks.

AQUAKART CIRCUIT

AQUAKART is an innovative entertainment concept with all the excitement of the kart competition that attracts a huge range of people of all ages without previous experience.

The **AQUAKART** is very safe and extremely easy to handle, making circuits an authentic show for everybody.

Global Opportunity

This is a business concept very profitable, unique in the world and compatible with both marine waters and other natural or artificial water environments.

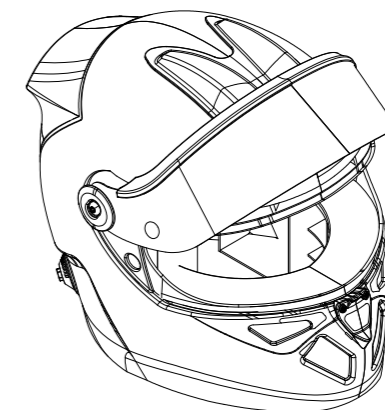

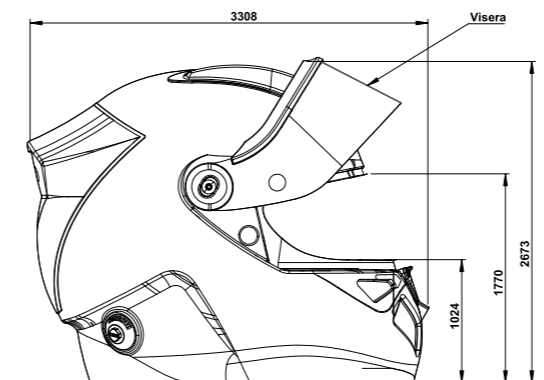

Water Circuit Concept

It offers an unrivalled experience which perfectly combine karting feelings with the excitement of water sports.
